Experience

Front End Developer / AWS Cloud Specialist

Hexaware Technologies

May 2023 - Present (9 months)

Brought on as FTE after successfully servicing Hexaware for a year.

Front end Development for company's internal website, using NodeJS, EJS, JavaScript, Express Rest API calls, converting JSON data to tables, graphs and charts. Successfully completed 5 releases with progressively more complex features. Tested code in DEVL and ACPT environments before deploying, via Jenkins pipeline, to production.

Working with the Cloud Governance Team to monitor assets using AWS Services to ensure continuous version updates while also ensuring services like SNS, SQS, DynamoDB, and Kinesis are properly encrypted.

Additional Duty including overseeing Onboarding / Transition of On-Prem services to the Cloud Services for over 20 assets.

Java Software Engineer

GenSpark

Feb 2022 - Jun 2023 (1 year 5 months)

Worked as a 3rd party vendor for Hexaware through GenSpark. In this duty I begun work on developing client's internal website adding features to enrich the user UI experience and the general usefulness of the website. Completed 5 successful releases, adding progressively enhanced features to the website such as dynamic data extractions, dynamic reporting tables and charts, searches, as well as templates and forms which made easy to apply updates to the SQL database, via Rest API calls.
