PROFILE

Product-focused Software Engineer with 3+ years building large-scale full-stack applications with 100+ users, automating workflows with GPT/Claude, and supporting production systems across AWS (ECS, Lambda, EC2, S3, RDS). Known for delivering user-facing features that turn complex API/JSON data into intuitive dashboards, and for driving reliability through SRE onboarding for 20+ applications. Combines strong JavaScript/Node.js/React engineering with a leadership background that strengthens communication, ownership, and cross-functional execution. Experienced in AI prompt engineering, cloud automation, and end-to-end feature delivery from UI to infrastructure.

CORE ENGINEERING

- **Languages:** JavaScript (ES6+), Python, SQL
 - **Frontend:** React, EJS, HTML5, CSS3, Bootstrap
 - **Backend:** Node.js, Express, REST APIs
 - **Databases:** MongoDB, PostgreSQL, MySQL, NoSQL
 - **AI & Automation:** GPT/Claude automation, AI Prompt Engineering, Playwright
 - **Cloud & DevOps:** AWS (ECS, EC2, Lambda, S3, RDS, CloudWatch), Terraform, CI/CD (GitLab, Jenkins)
 - **Tools & Practices:** Git, Auth0, Chart.js, SRE onboarding, Observability & Monitoring
-

Achievements

- Led onboarding of 20+ applications to SRE standards.
 - Recognized by Apple for onboarding 350 employees in a month.
 - Achieved 1% attrition rate for General Motors organization.
-

PROJECTS

Mind Managed – Group Project

[Demo](#) | [Repo](#)

- Built with AI prompt engineering
- Designed and built a full-stack web application for mood tracking and medication management.
- Implemented REST APIs, authentication, and CRUD workflows using Node.js, Express, and MongoDB.
- Integrated third-party APIs (openFDA) and data visualization (Chart.js) for user insights.
- Built responsive frontend using React and Bootstrap with secure authentication (Auth0).

WORK EXPERIENCE

Software Engineer / AWS Cloud Specialist

Hexaware Technologies

May 2023 – March 2026

- Quarterly deployments with upgrades and automations that served daily reports and UI self-serve features.
- Implemented software automation using GPT (Open AI), Claud (Anthropic), Playwright to refactor JavaScript code and to write Python code to execute automated tasks with file execution.
- Experienced in AI Prompt Engineering with knowledge including:
 - One shot, zero-shot, and few-shot prompting
 - Step prompting (Single step and Multistep)
 - Chain of thought reasoning
 - Self-consistency prompting
 - Interactive Prompt Engineering
- Supported and enhanced production applications across frontend, backend, and AWS cloud infrastructure.
- Developed user-facing features and dynamic UIs using JavaScript, EJS, and Express, transforming API and JSON data into dashboards, tables, and charts.
- Built and maintained REST APIs and Node.js services supporting application workflows.
- Worked with AWS services including ECS, EC2, Lambda, S3, CloudWatch, Aurora, and RDS in production environments.
- Deployed applications using CI/CD pipelines (GitLab, Jenkins) and infrastructure-as-code with Terraform.
- Led onboarding of 20+ applications to SRE standards, improving reliability, governance, and operational consistency.

Software Engineer

GenSpark

Feb 2022 – May 2023

- Developed small-scale internal web applications and reporting tools for enterprise clients.
- Implemented UI features, search functionality, and data-driven reports using JavaScript and SQL.
- Collaborated with backend systems to support operational workflows and data updates.

Senior Operations Manager

Concentrix Corp

Feb 2014 – Jul 2020

- Supported client partnerships: General Motors (2013–2016), Facebook (2016–2018),
- Apple Inc. (2018–2020).
- Developed and deployed performance plans based on reporting data.
- Oversaw operations in report analysis, KPI management, HR policies, performance management, and motivation.
- Recognized by Apple for onboarding 350 employees in a month during the 2020 pandemic.
- Achieved 1% attrition rate for General Motors organization.
- Won additional business with Facebook by exceeding efficiency and quality targets.

EDUCATION

- Bachelor of Science in Business Administration – University of Phoenix
- Full Stack Web Development Certification – University of Texas Austin
- Web Development Certificate – Southern Methodist University
