SUMMARY

Full Stack Web Developer with a bachelor's in business and over 20 years of experience working for companies like IBM, Facebook, Apple, and General Motors. Recognized and endorsed by former colleagues in Vendor Management and Business Performance Management. Earned certificates from the University of Texas in Austin Coding Boot Camp and SMU, focusing on Java and React Native. I am skilled in HTML, CSS, Bootstrap, and React.js, with a passion for continuous learning. Efficient, strategic thinker with adaptability to changing conditions. Dedicated to building websites and apps that provide practical services to people and businesses. Seeking to join a fast-paced, quality-driven team to make a positive impact.

EXPERIENCE

*Hexaware Technologies, **Cloud Engineer***

May 2023 - Present

Using GitHub Copilot and MS Copilot to automate manual and everyday process. This involves creating a step by step instruction md file with notes on the requirement, explicit restrictions on avenues not to follow, and a user story to follow to understand why the resulting product is being made. Provided platform support for applications utilizing NodeJS, JavaScript, and AWS services, enhancing application performance. Developed user interfaces with JavaScript and EJS, improving user experience and engagement. Managed deployment processes using GitLab/Terraform and Bitbucket/Jenkins Pipeline, ensuring efficient project delivery.

*GenSpark, **Java Software Engineer***

Feb 2022 - Jun 2023

Developed UI features for internal websites as a vendor for Hexaware. Built dynamic reporting tools, search functionality, and SQL update templates.
